

JHH UPDATE #13: COVID-19 SITUATION

15.4.2020

Dear Staff,

To ensure safe working conditions for everyone and to assist in keeping influenza-like illnesses contained, it is important that you are well when you come to work.

Part of taking care of yourself during this period is staying home if you're feeling unwell so you can rest and recover.

Current Situation

As of today (15th April 2020), JHH numbers remain stable at 4 confirmed admitted patients with COVID-19.

PPE

It is very important that staff in procedural and other areas of the facility not wear hospital scrubs (light blue) home. As you know, we are needing these for clinical purposes and stock needs to be laundered and returned so they are available to staff for clinical use when needed.

Communication

The next JHH staff information Broadcast is scheduled for Thursday 16.4.2020 at 10.30am, staff can join this information session from any PC or mobile device browser by following this link: [Join the meeting](#).

Contact, Droplet and Airborne Precautions

Over the weekend, HNELHD updated the video link on all desktops across the District.

Instead of donning and doffing of PPE, the desktops now link to a video on contact, droplet and airborne precautions. This [10 minute video](#) has been developed by the CEC and includes the process for risk assessment for differing types of PPE. I encourage all frontline staff to watch the video and refer back to it when needed.

Staff Wellbeing

For a limited time, Newcastle based restaurant Subo is running a weekly draw for all health care workers at JHH to win a free SUBO at home experience by providing one lucky winner per week with an interactive three course meal from their delicious and interesting menu.

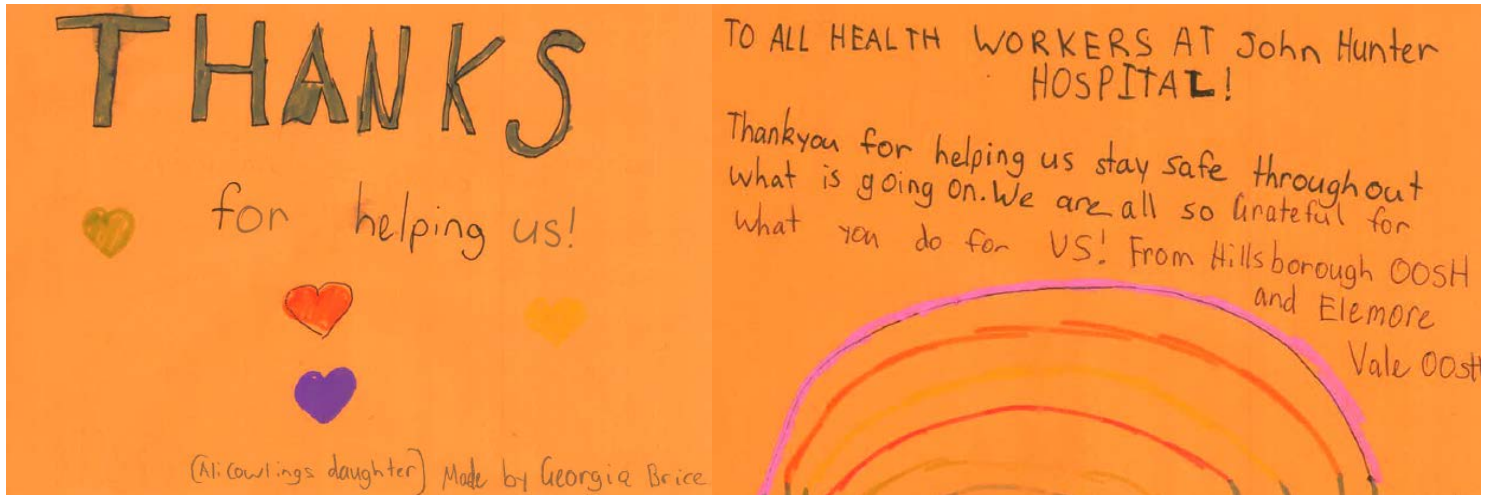

To enter, staff can register using this link:

Staff Showers for John Hunter Hospital Staff

The location of staff showers throughout the facility is attached to this daily information release. Showers are cleaned daily, this will be reviewed as use increases.

Leanne Johnson
General Manager
Incident Controller

Staff showers John Hunter building

Staff showers are available in the attached locations. All have been inspected and are in working order.

Given the unprecedented demand for staff showers we ask that you allow your colleagues from other areas access to locker rooms with keypads.

With multiple staff finishing shifts together there may also be delays to access a shower and appreciate your patience and during this time.

Showers are cleaned daily, and this will be reviewed as use increases.

Please enter a Maximo work request for any repairs or if shower roses are missing.

LOCATION	NO. SHOWERS	Ward staff to enable other staff to access locker rooms with keypads as required.
